

- DATA SHEET -

DAME DE BOÜARD

Vineyards : 30 hectares (74 acres) of producing vines

Appellation : Montagne Saint-Emilion

Soil type : Clay-limestone

Average age of the vines : 40 years

Grape varieties : 19,6 hectares (48,5 acres) of Merlot

7,3 hectares (18,2 acres) of Cabernet Franc

2,6 hectares (6,4 acres) of Cabernet Sauvignon

Yield : 35 hectolitres per hectare

Fruit selection : manual with a Mistral sorting table
and an optical eye machine

Consultant Oenologist : Hubert de Boüard de Laforest

Wine-Maker : Coralie de Boüard de Laforest

Winemaking steps : Prefermentation soak at 7.5 to 10°C (46 to 50°F)

Alcoholic fermentation

Maceration for 3 to 5 weeks

Malolactic fermentation in wood

Fruit from individual plots is vinified separately using all these steps

Ageing : 10 to 14 months, 30% in new barrels

Blend : 60% Merlot, 30% Cabernet Franc, 10% Cabernet Sauvignon
